Technical Session Topics Announced for GRC Annual Meeting

70 Hours of presentations offered at the 2012 GRC Annual Meeting in Reno, Nevada.

(Davis, Calif.) The Geothermal Resources Council (GRC) is pleased to announce the topics for the Technical Sessions at the 2012 GRC Annual Meeting.

The topics on offer are:

African Rift	EGS	Production Technology
Basin & Range	Exploration	Regulatory/Environmental Issues
Business Development	Geochemistry	Reservoir Management
Case Studies	Geology	Resource Assessment
Coproduction	Geophysics	
Direct Use	Heat Pumps	
Drilling	Power Operations	

The global geothermal community will convene once again at the biggest annual event for the industry. There will be 234 papers presented in 70 hours of presentations over three days. The 2012 GRC Annual Meeting will be held at the Peppermill Resort Spa in Reno, Nevada, USA from September 30 –October 3. The theme for this year's meeting is *Geothermal: Reliable, Renewable, Global*. Registration will open in the coming months.

“The topics on offer in the technical sessions represent the major issues and geographical areas of interest in global geothermal”, said GRC interim Executive Director Steve Ponder. “The presenters are the best and brightest of the geothermal community and their presentations are top-notch”.

More information on the technical sessions and other events at the 2012 GRC Annual Meeting can be found on the GRC website at www.geothermal.org.
