Reserve Your Hotel Rooms for GRC Annual Meeting & GEA Geothermal Energy Expo

Hotel room reservations can now be made for the biggest annual geothermal energy event in the world to be held in Reno, Nevada, USA.

(Davis, California). Reservations can now be made for rooms at the venue for the 39th Geothermal Resources Council (GRC) Annual Meeting & Geothermal Energy Association (GEA) Expo, being held in Reno, Nevada, USA, September 20 – 23, 2015. All the events and accommodation are in one location, the luxurious Peppermill Resort Spa Casino, the only resort in the United States whose heating source is totally provided from geothermal energy produced on the immediate property.

There is a choice of three room styles at discounted rates. At the newly remodeled Peppermill North and West Wings the room rates start at an affordable \$79 a night. The award winning luxurious Tower Rooms offer panoramic views of the majestic Sierra Nevada mountains and are available from \$99 a night. Top of the line are the lavish accommodations of the new Tuscan Suites at \$139 a night. The discount ends September 29.

Attendees can make their reservations on a secure website prepared specially for the GRC and GEA. The link is available from the GRC Annual Meeting website at: www.geothermal.org/meet-new.html.

The GRC Annual Meeting & GEA Geothermal Energy Expo is the industry's largest annual gathering of leading geothermal energy scientists, producers, renewable energy industry stakeholders, regulators, utilities, and key associated business leaders. The four-day event will offer technical, policy, and market conference sessions, educational seminars, tours of local geothermal and renewable energy projects, trade show and numerous networking opportunities.

More information on the biggest annual geothermal event in the world can be found on the GRC website at: www.geothermal.org/meet-new.html

##

About the Geothermal Resources Council:

With the experience and dedication of its diverse, international membership bolstering a more than 40-year track record, the Geothermal Resources Council has built a solid reputation as one of the world's preeminent geothermal associations. The GRC serves as a focal point for continuing professional development for its members through its outreach, information transfer and education services.
