International Geothermal Energy Updates Now Available

*Presentations from the international events at the GRC Annual Meeting
made available by the Geothermal Resources Council*

Davis, CA, USA - The Geothermal Resources Council (GRC), one of the world's premier geothermal associations, has made available the presentations from the international events at the GRC Annual Meeting held last month in Portland, Oregon, USA.

Demonstrating the focus on international involvement at the meeting, the GRC hosted the 7th International Luncheon with representatives from Ethiopia and Kenya reporting on the exciting developments in geothermal power in their countries. **Ruth Musembi**, Head of Corporate Communication & Marketing, Geothermal Development Company (GDC) of Kenya and **Mekuria Lemma**, Head of Corporate Planning, Ethiopian Electric Power (EEP) have very kindly made their presentations available.

In addition, at an International Session, part of the GRC Technical Sessions, 9 experts from around the world gave presentations on updates in North America, Central America, South America, Australasia, Philippines, Indonesia, Japan, the Middle East and Europe.

The GRC has posted these international geothermal energy updates to the GRC Website at www.geothermal.org/meet-new.html.

The GRC Annual Meeting & GEA Geothermal Energy Expo in Portland, Oregon, USA from September 28 –October 1 attracted over 1,400 attendees from 39 different countries. Next year's 39th GRC Annual Meeting & GEA Expo will be held in Reno, Nevada, USA, from September 20 – 23, 2015.

##

About the Geothermal Resources Council:

With the experience and dedication of its diverse, international membership bolstering a more than 40-year track record, the Geothermal Resources Council has built a solid reputation as one of the world's preeminent geothermal associations. The GRC serves as a focal point for continuing professional development for its members through its outreach, information transfer and education services.
