

GEOTHERMAL RISING

Geothermal Rising will once again feature an *In Memoriam* section to recognize those who made lasting contributions to our community. We invite colleagues, friends, and family members to submit a short remembrance and photo to be included in this year's tribute. Each individual will be recognized on our website with a dedicated page that includes their photo and a personal write-up. We welcome reflections that capture the person's professional impact and personal spirit. You might share:

- A story that highlights their leadership, mentorship, or vision for geothermal energy.
- A memorable project or contribution that advanced the field.
- Words that reflect their character, generosity, or passion for the earth.
- A short message from a family member or colleague about how they inspired others.

The individual's full name and years of life

Name

Years of Life

A photo (headshot or meaningful image)

Name the file with the individual's name

Please put the image and save PDF entitled by their name into the folder [\(link here\)](#)

A brief remembrance written by a colleague, friend, or family member Suggestion: maximum of 300 words.

Your name and affiliation with the In Memoriam Individual

We sincerely thank all who take the time to submit a remembrance. Your reflections honor the contributions, passion, and spirit of those we have lost, ensuring their legacy continues to inspire the geothermal community.
